CIVIL ENGINEERING PROJECT ENGINEER

Coleman Engineering Company is an industry leader in design and construction for a wide variety of civil engineering related projects in the Upper Midwest. We are seeking a qualified Engineer with willingness to be trained and develop skills required to meet our clients' needs. Duties will include a wide range of project design and construction related responsibilities. Position available in our Iron Mountain, MI and/or Green Bay, WI office.

Areas of practice will include general civil design, utility design, site grading and earthwork analysis. Tasks may also include gathering field samples, surveying, and computer aided design. On-site inspection of construction projects is anticipated. The work may at times involve short-term out-of-town assignments.

Applicants must be able to work in locations that feature rough terrain typical of construction sites and enter and work within facilities that include limited accessibility, moving machinery, and other conditions typical of construction projects. Safety training will be provided to prepare for these situations. Applicants may be asked to participate in a drug screening program at the request of specific clients.

Minimum Qualifications

- B.S. in Civil Engineering with academic coursework directly related to the areas described above
- Familiarity with AutoCAD, Civil 3D, or other CAD-based civil design software
- Computer skills and familiarity with Microsoft Word, as well as intermediate to advanced abilities in Excel
- Strong interpersonal, verbal, and written communication skills
- Able and willing to conduct fieldwork independently or with other team members, either locally or out of town, when needed
- A flexible working style, self-motivation, initiative, and a willingness to modify personal schedules as required to meet client needs and project schedules
- Conscientiousness concerning the accuracy, appropriateness, and timeliness of results
- Legal authorization to work in the United States without the need for sponsorship
- Acceptable driving record

Preferred Qualifications

- Engineer-in-Training (EIT) certified, or ability to obtain within one year
- Up to 4 years of related work experience
