## CIVIL ENGINEERING DEPARTMENT MANAGER

Coleman Engineering Company is an industry leader in design and construction for a wide variety of civil engineering related projects in Upper Michigan and Northern Wisconsin. We are seeking a qualified Civil Engineering Department Manager ready to manage a staff of 10 engineers and technicians in our Ironwood, Michigan office. Duties will include overseeing a wide range of project design and construction inspection related responsibilities, management of engineering staff, project management, proposal writing and client relations.

### Minimum Qualifications

- B.S. in Civil Engineering with academic coursework directly related to the areas described above
- Computer skills and familiarity with Microsoft Word, as well as intermediate to advanced abilities in Excel
- Familiarity with AutoCAD, Civil 3D, or other CAD-based civil design software
- Strong interpersonal, verbal, and written communication skills
- A flexible working style, self-motivation, initiative, and a willingness to modify personal schedules as required to meet client needs and project schedules
- Conscientiousness concerning the accuracy, appropriateness, and timeliness of results
- Legal authorization to work in the United States without the need for sponsorship
- Acceptable driving record

### Preferred Qualifications

- Registered Professional Engineer
- 10 years of related work experience
- Familiarity with state and federal infrastructure funding applications

Please visit the city website at <https://cityofironwood.org> for information on living in Ironwood, Michigan at the western tip of the Upper Peninsula.
